## Conferences and Seminars

PPCHEM AG and its predecessor, Waesseri GmbH, have organized more than 50 conferences and seminars around the world with the mission of expanding the knowledge of cycle chemistry and the understanding of analytical instruments.

The topics of these conferences and seminars have included, among other things:

- Basics of power plant chemistry
- Flow-accelerated corrosion
- Chemical cleaning
- Plant preservation
- Sampling and monitoring
- Cooling water
- Water treatment
- Steam chemistry
- Boiler chemistry

Details on current conferences, seminars, and other PPCHEM events are continually updated on the PPCHEM AG website ([www.ppchem.com](http://www.ppchem.com)).
